PROFILE INFO

Motivated cybersecurity graduate with a foundation in network security, ethical hacking, and risk management. Actively seeking an opportunity to gain hands-on experience in threat analysis, incident response, and real-world cybersecurity scenarios. Eager to sharpen technical expertise while receiving professional training and guidance from industry experts.

EDUCATION

COVENTRY UNIVERSITY

- BSc (Hons) Ethical Hacking and Cybersecurity | Softwarica College of IT and E-Commerce

KEY SKILLS

- Microsoft Office
- Teamwork
- Problem-Solving and Analytical Skills
- Adaptability to change
- Interpersonal and communication skills
- Ability to leverage technologies
- Time and project management skills
- Initiative

LANGUAGES

- English
- Nepali

TECHNICAL SKILLS

- Experienced on Linux Operating System (Kali, Ubuntu)
- Virtualization (Virtualbox / Vmware)
- Experienced in digital forensic tools like Bulk Extractor, FTK Imager, Autopsy

Networking - Network Security, Switching and Routing

- Vulnerability assessment and penetration testing (VAPT report) conducted using various tools like - Wireshark, Nmap, Metasploit, Burp Suite
- Server Deployment and Microsoft group policy management
- Deployment of various tools using Docker Environment

OPERATING SYSTEMS

- Windows OS
- Linux OS

ACADEMIC PROJECTS

- Automated Auditing Toolkit
  - Design and implementation of an automate auditing toolkit for detecting security misconfiguration in Active Directory Environment with Natural Language Processing (NLP)

- Intrusion Detection System (IDS)
  - Design and implementation of IDS (Intrusion Detection System)

- MITM testing and brute-forcing
  - Using "Airmon" tools/command-line, MITM (Man-in-the-Middle) testing was performed to gain access to the 3-way handshake file of a particular Wi-Fi network, and the password was cracked using brute-forcing.

- Wazuh Home Lab
  - Setup Wazuh Server in ubuntu OS along with Wazuh client in multiple endpoint devices

EXPERIENCE

- 3 months as a L1 Security Analyst at **Raechal Enterprises Pvt Ltd Information**

CERTIFICATES:

- Security Blue Team:
  - Introduction to Digital Forensic-course
- Red Team Leaders
  - Certified Cybersecurity Educator Professional (CCEP)
- CrowdStrike University Certificates
